

Cylindrical Museum Jar

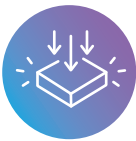

Built to Preserve

Our Cylindrical Museum Jars are ideal for the safe storage & clear display of anatomical and pathological specimens.

Crafted from high-quality borosilicate or soda-lime glass, these jars are built to withstand chemical preservatives & maintain visual clarity over time.

Cylindrical Museum Jar

Cylindrical Museum Jars are ideal for the safe storage, preservation, & display of biological specimens. With clear walls & the durable construction, they support long-term archival needs in laboratories, medical institutions, & museums.

Speacially blown to give sturdiness & long life

Not recommended for use over a direct flame.

For storage & display of the preserved organs
